

# Cogito™ Active Directory Module

## Centralized Management of Users

100% browser-based solution  
Synchronize Windows and Cogito users  
Logical & physical security convergence  
Affordable, intuitive and easy to use

## Key Features

Cogito Active Directory Integration ensures that your physical security system is perfectly in sync with your IT user directory.

- Synchronizes users from Active Directory with Cogito Users.
- Automatically downloads users to controllers in real-time.
- Multiple active directory servers may be configured.
- Scalable to tens of thousands of users.
- Disabling a user in Active Directory will automatically remove user's access to all restricted areas.
- Schedule an automatic synchronization between Cogito and Active Directory.
- Synchronize Cogito and Active Directory manually on-demand.
- Supports encrypted communications using SSL.
